EXAM CLOUD DIGITAL LEADER TOPIC 1 QUESTION 189 DISCUSSION

Actual exam question from Google's Cloud Digital Leader
Question #: 189
Topic #: 1
[All Cloud Digital Leader Questions]

A large retail organization uses traditional technology for their ecommerce website. During peaks in traffic, resources are often underutilized or overprovisioned. They have decided to migrate to cloud technology.

What aspect of cloud technology will benefit their ecommerce business?

A. Agile infrastructure means that they only pay for what they need, when they need it.

B. Operational expenditure means that their total cost of ownership is more predictable.

C. Unlimited storage means that their website will never experience downtime.

D. Shared responsibility means that the cloud provider brings increased visibility during peaks in traffic.

Selected Answer: A

Suggested Answer D is incorrect on many counts
1. Creating visibility is first of all not cloud providers responsibility.
2. Secondly their responsibility is to secure the underlying infrastructure even as per definition of "shared responsibility"

The correct Answer must be = A
