## EXAM CLOUD DIGITAL LEADER TOPIC 1 QUESTION 3 DISCUSSION

Actual exam question from Google's Cloud Digital Leader

Question #: 3

Topic #: 1

[\[All Cloud Digital Leader Questions\]](#)

Your organization needs to plan its cloud infrastructure expenditures.

Which should your organization do?

- A. Review cloud resource costs frequently, because costs change often based on use
- B. Review cloud resource costs annually as part of planning your organization's overall budget
- C. If your organization uses only cloud resources, infrastructure costs are no longer part of your overall budget
- D. Involve fewer people in cloud resource planning than your organization did for on-premises resource planning

Answer is A...

Don't be fooled by 'Cloud Infrastructure' as being only physical. the resources like Cloud VPN, Internconnects, GCE, etc are all 'cloud infrastructure'... resources and cloud infrastructure are used interchangeable...

The most effective approach for planning and managing cloud infrastructure expenditures is:

A. Review cloud resource costs frequently, because costs change often based on use

Cloud resource costs can fluctuate based on usage patterns, resource allocation, and various pricing models. Regularly reviewing these costs helps ensure that your organization stays within budget, identifies any unexpected expenses, and adjusts resources as needed. This proactive approach is crucial for managing and optimizing cloud spending effectively.
