EXAM CLOUD DIGITAL LEADER TOPIC 1 QUESTION 49 DISCUSSION

Actual exam question from Google's Cloud Digital Leader

Question #: 49

Topic #: 1

[\[All Cloud Digital Leader Questions\]](#)

Your organization runs many workloads in different Google Cloud projects, each linked to the same billing account. Each project's workload costs can vary from month to month, but the overall combined cost of all projects is relatively stable. Your organization needs to optimize its cost.

What should your organization do?

- A. Purchase a commitment per project for each project's usual minimum
- B. Create a billing account per project, and link each project to a different billing account
- C. Turn on committed use discount sharing, and create a commitment for the combined usage
- D. Move all workloads from all different projects into one single consolidated project

wtf are those questions? HAVE ONE BILLING ACCOUNT FOR EVERYTHING?! really guys? I d say B because we're human. then C bc costs. i really really hate how google phrases its questions. after directing with its sentences into a ceratin direction it just makes a uturn and asks about costs, wtf google? asperger/adhd much? "2 miles down the road is an old workshop, each hour tinkering costs \$20. Which way is africa?"

Selected Answer: C

Committed use discount sharing allows you to apply a single commitment to multiple projects linked to the same billing account, which is a useful way to aggregate your usage and get the most benefit from your commitments. It's especially effective if your overall combined cost is relatively stable, as you mentioned.

Selected Answer: C

If the overall combined cost of all projects is relatively stable, consolidating billing under a single billing account can provide better visibility and management of costs. This allows you to analyze and optimize costs across all projects collectively.

If certain projects have similar resource requirements or workloads, you can consider consolidating them into a single project. By doing so, you can optimize the usage and commitment of resources, allowing you to purchase CUDs more effectively.

Committed Use Discount is applicable only for 1 or 3 years term agreement. But the question didn't talk about the duration. So the answer will be D

   upvoted 1 times

  **raja3l49** 2 years ago

I will go with Option D
