EXAM CLOUD DIGITAL LEADER TOPIC 1 QUESTION 112 DISCUSSION

Actual exam question from Google's Cloud Digital Leader

Question #: 112

Topic #: 1

[\[All Cloud Digital Leader Questions\]](#)

An organization has decided to modernize their applications in the cloud to keep up with their customers' needs. What may have prompted this business decision?

- A. Their on-premises applications only autoscale to meet demand.
- B. They want to change from a pay-as-you-go model to a capital expenditure model.
- C. Their source code changes erroneously without developer interaction.
- D. Their on-premises applications take months to update and deploy.

Selected Answer: D

D. Their on-premises applications take months to update and deploy.

One of the main benefits of modernizing applications in the cloud is that it can help organizations to update and deploy applications more quickly and easily. This is because cloud platforms provide a variety of features and tools that can automate the development, deployment, and management of applications.

Selected Answer: D

On-premise takes longer, as one has to update systems too.
