Selected Answer: B

Security Command Center (SCC) is a security information and event management (SIEM) solution that provides insights into your security posture across Google Cloud and hybrid environments. SCC collects security signals from a variety of sources, including Google Cloud audit logs, system logs, and network traffic. It then analyzes these signals to identify security threats and compliance violations.

Selected Answer: B

Google Cloud Security Command Center (Cloud SCC) is a comprehensive security management and data risk assessment platform.

By using Google Cloud Security Command Center, your organization can gain valuable insights into the security risks and compliance violations in your Google Cloud environment. It provides actionable recommendations to improve your security posture, mitigate vulnerabilities, and ensure compliance with industry standards.
