EXAM CLOUD DIGITAL LEADER TOPIC 1 QUESTION 173 DISCUSSION

Actual exam question from Google's Cloud Digital Leader

Question #: 173

Topic #: 1

[\[All Cloud Digital Leader Questions\]](#)

A venue with an online booking system has partnered with a catering business.

How can the venue leverage application programming interfaces (APIs) to create new business value?

- A. Use an API to redesign their booking system to appeal to targeted customers
- B. Use an API to identify opportunities for new business collaboration
- C. Use an API to migrate all their customer data to a machine learning model to predict food requests
- D. Use an API to connect their booking system with the partner's catering form

Selected Answer: D

The correct answer is D. The venue can use an API to connect their booking system with the partner's catering form, enabling customers to book both the venue and catering services seamlessly. By leveraging APIs, the venue can integrate and share data between their booking system and the catering form, ensuring that customer bookings are accurately processed and that the venue and catering business can efficiently manage their operations together. This creates new business value by offering customers a convenient and streamlined booking process for both services.
