Selected Answer: D

The correct answer is D

allymaher 3 weeks, 4 days ago

The correct answer is D. Commit to virtual machine usage for a one or three-year period.

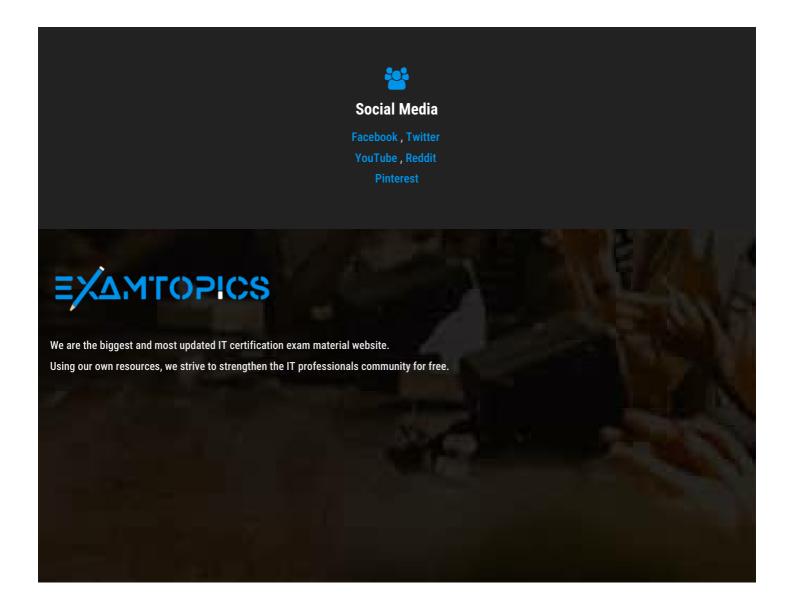

Here's a breakdown of why:

Sustained-use discounts: These discounts are offered by Google Cloud Platform (GCP) for consistent usage of virtual machines over a specified period.

Commitment options: To qualify for sustained-use discounts, organizations can commit to using virtual machines for either one or three years. This commitment provides GCP with a predictable workload, allowing them to optimize resource allocation and offer discounted rates.
