## **EXAM CLOUD DIGITAL LEADER TOPIC 1 QUESTION 203 DISCUSSION**

Actual exam question from Google's Cloud Digital Leader

Question #: 203

Topic #: 1

[All Cloud Digital Leader Questions]

An organization is concerned about the unlikely event that Google Cloud infrastructure is physically accessed by someone with malicious intent. How is data protected in Google Cloud?

- A. Data is immediately deleted whenever an intrusion is detected.
- B. Data is stored on quantum computers with unbreakable encryption.
- C. Data is stored using robust encryption.
- D. Data is stored in random locations around the world to prevent it being found.
